Tableau Software, LLC
Extended Support Policy

I. Overview
This Extended Support Policy ("Extended Support Policy") describes the policies and procedures under which Tableau Software, LLC, or its applicable affiliate ("Tableau"), provides Extended Support services ("Extended Support") for its proprietary Desktop, Server, and Prep software products ("Software") to its customers (each, a "Customer").

Extended Support is subject to the terms and conditions of the License Agreement, the terms of Tableau’s Technical Support Policy, and the terms of this Extended Support Policy. Extended Support is provided for the term specified in the Ordering Document. All undefined capitalized terms used herein shall have the same meaning as set forth in the License Agreement and in Tableau’s Technical Support Policy.

Extended Support is provided through Tableau’s online web-based supported channels ("Supported Channels") as indicated on Annex A to this Extended Support Policy.

II. Eligibility
A Customer is eligible for Extended Support provided that they have purchased the Extended Support service and are current Technical Support customers in accordance with the Technical Support Policy. Extended Support services shall not apply to the Customer’s Affiliates who have licensed their own Software under a separate License Agreement, unless the parties agree otherwise in writing. Only Named Customer Contacts are eligible for Extended Support and no User Contacts will be covered under Extended Support.

III. Scope of Extended Support
In addition to the Technical Support services outlined in the Technical Support Policy, Extended Support includes the following services.

A. High Priority Incident Response and Emergency Response: Incidents reported by a Named Customer Contact covered under Extended Support are given precedence over other Incidents of the same age and priority reported by other customers under the Technical Support services outlined in the Technical Support Policy.

B. High Priority Incident Response: Outside of Business Hours, only Named Customer Contacts may submit P1 Incidents via Supported Channels as outlined on Annex A to this Extended Support Policy.

IV. Named Customer Contacts
A. For the avoidance of doubt, Named Customer Contacts for Extended Support may be in addition to or the same Named Customer Contacts allowed for Technical Support provided that the number of Named Customer Contacts for Extended Support does not exceed the total number of Named Customer Contacts allowed in Annex A to Extended Support Policy.

V. Policy Details. Important details of this Extended Support Policy are set forth on Annex A including the business hours during which Tableau provides Extended Support ("Business Hours"), limits on the number of Named Customer Contacts, target response times for Incidents, and other details.
## Annex A to Extended Support Policy

### SUPPORTED SOFTWARE
