How the SPORTS got its CHORD
Have you made any progress?

Alice Flannery: 24 Mar 2017
I've got about half way to making the dream plot!

Omg
That's cool!
Is it hard?

It's a codey thing but getting to understand it through testing and tweaking!

Looking fab!
What are you wanting to show?

This is what I wanted the posters to be of!

What do you want for dinner?
Pizza sushi or Thai?
From my aunt

Thai or pizza you choose

Probably Thai

Who’s the best driver?  
Where are the drivers from?

What Circuits are most raced at?  
Who’s the best constructor?

What engines are most used?  
What circuit types are there?
What does it make you think of when you see it?

A racing track!

Cars lining up to race

It's super cool

Great

I was actually thinking a wheel but that's even better haha

Thanks

Does this make sense?

Kinda

What don't you understand from it atm?

I need to make it obvi

Dates

Okay

I can't work out when things happened

That's good

I can add them quite easily!

THE CONSTRUCTORS

There have been 254 unique constructors to start a race in Formula 1. In today's format, there are 10 constructors each represented by 2 drivers, making up 20 car field. Several constructors have replaced older engine names throughout their history in Formula 1. Recent examples being Honda in 1966 and Stewart in 1970. The below graph looks at the competitors and champions since 1950.
